

FOR IMMEDIATE RELEASE

Competency & Credentialing Institute Partners with OpenEyes Technologies to Enhance Support for Perioperative Nurses through New Digital Infrastructure

Denver, CO (March 21, 2025)— The Competency & Credentialing Institute (CCI), a leader in perioperative nursing certification, announces its partnership with OpenEyes Technologies to reimagine its digital infrastructure. This collaboration will streamline processes, enhance the user experience for perioperative nurses, and improve operational efficiency for CCI's team.

"At CCI, we are driven by our mission to empower perioperative nurses and advance surgical patient care through certification," said Melissa Nosik, CEO of CCI. "Partnering with OpenEyes Technologies represents a transformative step in ensuring our digital tools are intuitive, accessible, and ready to meet the evolving needs of our community."

Benefits for Nurses

The upgraded system, perioperative nurses can expect:

- **Simplified credentialing processes:** Faster, more intuitive pathways for earning and maintaining certifications, reducing administrative burdens.
- **24/7 accessibility:** Enhanced online tools for seamless certification management and access to resources.
- **Improved user support:** Faster, more effective assistance to ensure a smooth and stress-free experience.

OpenEyes Technologies brings expertise in digital transformation, ensuring that CCI's platform meets today's needs while preparing for the future.

"With OpenEyes Technologies, we're reimaging how we support the perioperative nursing community," Nosik added. "This investment reinforces our commitment to fostering excellence in perioperative care and certification."
